IN THREE PARTS.

My first is a country on the other side of the world, with a population of at least 400,000,000. The people subsist chiefly on rice and rats, and the chief product of the country is

TEA.

My second as seen in this country, consists of the dried leaves of several plants of the genus *Ilex*, belonging to the natural order of *Pentamerinæ*. The leaves are two or three inches long, and half an inch to an inch broad, and of elliptical, oblong shape. These leaves, when properly prepared, make a very delicious and gently stimulating beverage, which is among women very much the same as Thackery says the cigar is among men—the great unpossessor of sorrow.

My third is just the same place, as my whole, being the best place in the State of Maine to buy the best

Teas, Coffees, Spices, &c. &c.

For Ready Cash.

THE ANSWER

My first is CHINA
My Second is TEA
My Third is STORE.

And my whole is the celebrated Establishment of the China Tea Store.

The attention of families is therefore respectfully called to the fact that they can procure considerable money and get a good article by calling together and settling at the

THE ELECTIONS

It is seldom that even an "off year" in politics has witnessed such apathy as has been manifested with reference to the result of the recent elections The issues in the several States were almost entirely of a local character, little interest was excited, the voting was very light and no one has deemed it worth the trouble to collect and send forward the returns Up to Friday evening we have had only the most meagre reports, the indications of which may be summed up as follows Pennsylvania has given another complete Republican victory, Iowa elects a Republican Governor and Legislature by some 20 000 majority California has probably been carried by the Anti Monopolists against the regular Republican and Democratic nominations Nesmith is elected to Congress from Oregon, the Democrats have probably carried the Legislature in Ohio will the result on the State ticket still in doubt and both sides claiming the election

With the above as the sum total of information received the *Commercial* hastened on Thursday to exhibit its faith in the ignorance or stupidity of its readers by pretending to have information that the Democracy of Ohio have swept the State electing their candidate for Governor and entire State ticket by majorities ranging from 5,000 to 12 000 And again on Friday when no telegrams were received from Ohio, it paraded among its regular despatches a clipping from the N Y *World* as the latest news, by telegraph With even more effrontery it declared on Thursday that the California Democracy had also swept the State electing their candidate for Supreme Judge when the despatch in an adjoining column plainly announced the defeat of the Democratic candidate by the Independent, or anti railroad party Californians would probably smile to hear this claimed as a Democratic victory

To one who enthuses so readily as our neighbor a little matter furnishes pretext for a great noise but to predicate a restoration of Bourbonism upon anything which occurred last Tuesday, I like the senseless boasting which so constantly came to grief last year The election of Mr Nesmith in Oregon is no surprise and so far from affording comfort to the Bourbon Democracy, it was due to his personal popularity his identification with important local interests and especially to his excellent record as a War Democrat In Ohio the Democrats have very naturally taken advantage of the Republican apathy their table and elections where no great questions are involved, and they have made every possible exertion to save Senator Thurman the Democratic leader in Congress and a very popular man in his State The main contest was on this question the Democrats were more readily brought to the polls than the Republicans, and on a light vote they have gained an incidental and temporary success The reports from Pennsylvania and Iowa show that there is no general break in the Republican line California, Oregon and Ohio told us last year where their people stand when national issues are involved, and while the Democrats shout themselves hoarse over results of the smallest political significance the Republicans of the country will smile at the waste of enthusiasm conscious that whatever encourages the old Democratic party to keep the field affords assurance of continued Republican ascendancy in the next Congress

By the Richmond *Enquirer*. 'The storm sweeps on The canvass begins to wax hot. Deep answers deep and the thunders of Belmont are answered by the waves that boom along our sea coast From the great Southwest the land of age hearts and true patriots comes the roar of the great conservative masses moving on to triumph Along the old route of Somerwall Jackson's victories go up the shouts of those noble men who never failed Virginia on any issue whether of peace or war From the hot regions of that pitiless storm, now rising in the mountains bursting in tide water and mutte ing o'er its subside Hughes and his myrmidons will remain No pumice soda about that

Hon James W Nesmith the newly elected Congressman from Oregon, is a native of Maine and a man of character and ability During the war he served as United States Senator from that State, and was conspicuous as a patriotic war Democrat serving on the Military Committee He has been thirty years a resident of Oregon His service on the Military Committee is what pleases the Democrats

The wife of Rev Mr Sherman of Piermont N H whose wonderful story is given on our first page to-day is regarded as a truthful woman by those who have known her She was for many months a sufferer from real or imaginary ailments,—more imaginary than real, some of her acquaintances believed —and it had been feared by some who knew her that she was becoming insane This explanation of public opinion may throw some light upon her remarkable statements.

A large number of the *Railroad Gazette*, says that during the single month of August, last there occurred in the United States one hundred and fifty accidents, on railroads resulting in the death of sixty three persons, maiming or injuring of one hundred and thirty five more Nineteen of these accidents resulting in injuries alone the remainder being destructive only to property On six days of the month there were eight, nine and ten accidents daily the 14th being the only day of the month free from casualties of some sort.

THE IOWA ELECTION Returns received at the office of the *State Register* to Thursday night indicated that Governor Carpenter's majority will be nearly 21 000 The returns also indicate that the Republicans have not, as reported, lost control of the House but they will have 88 members or eight majority The Republicans will have 32 out of 50 members of the Senate, and if the independent Republicans are admitted to the party, as they always have been in that State, the joint majority will be nearly twenty

The Philadelphia *Press* notes a peculiar exhibition of independence among the voters in the Pennsylvania election Such strong Republican counties as Delaware and Huntingdon are reported to electing Democrats to the Legislature, while such steadfast Democratic counties as Cambria, Schuylkill and Montgomery have elected Republicans.

The Louisville *Commercial*, in an article on the Ku Klux in Kentucky, says 'It is not complimentary to Kentucky, we admit, but the time has come for the Federal authorities to interfere. The honor of the whole country demands it How about Federal usurpation?

That worthy exponent of intensified Democracy, the Lexington, Mo., *Caucasian*, had a leading editorial on the 11th inst., calling attention to the offer of a correspondent to bet $5000 that President Grant will be assassinated within six months. The editor publishes the brutal proposal, and says, "We have only to add that it will give the *Caucasian* profound pleasure to add that Mr Harper has won his bet" This only shows that Missouri Bourbons are a little more plain spoken than their New England confreres.

THE USES OF ADVERSITY

The *New York* organ of the Democratic party receives the news of the electional yesterday with characteristic vivacity. It "puts up' a "display head" over the result, and brings out a flag—the old one—as if to celebrate the defeat of its own friends. After premising "Victory' in large capitals, with The Old Flag at the Front' for the nominal Democratic success in Ohio, this remarkable head is rounded off with the announcement of "Democratic Gains all over Pennsylvania the Republicans Win the State by Fraud—Republican Majority Ripped Up in Iowa—Triumph in Oregon—The Drops Before New York's November Shower" This is as if a man about to be hanged while rubbing his hands with satisfaction at his own prosperity, should gaily remark to the crowd below the scaffold "Good bye, my friends, you remember I said I should rise in the world To, ta! *Au revoir*' It is plain that no mistake can jangle the sweet bells of this organ—*N Y Evening Post.*

COMMERCIAL AGENCIES. At the last session of the Dominion Parliament Mr. Domville made a movement with a view to making commercial agencies responsible, in the event of their incorrectly making reports injurious to the credit of merchants and others. It is intended that some security will be had for damage recovered in such a case, and flagrant offences shall be treated as misdemeanors. Mr Domville will again proceed in the matter, and will be happy to co-operate with those who entertain similar views. It may be necessary to support the application for a bill by petitions.—*St John Telegraph.*

WASHINGTON

NATIONAL RECEIPTS ON THE FINANCES

CSS

NEW YORK Oct 17 A Washington despatch says the appropriations which Congress [illegible] asked to make at the coming session, [illegible] estimates for the next fiscal year, and a very large deficiency for the present year [illegible] is reason to believe, will be greatly in excess of appropriations for any year since the beginning of President Grant's administration This fact, considered in connection with the condition of the Government Revenue since the beginning of the panic, and the impossible permanent decrease in customs duties for many months to come, indicates that the Appropriation Committee will have very serious work before it in appeasing the demands for large expenditures. It already seems to be a matter of some doubt as to whether the revenue for the present fiscal year will meet the expenditures that already are provided for by law, and the deficiency which Congress will be asked to allow [illegible] is much apprehension in the Treasury Department lest Congress will add [illegible] expenditures which can only be met by an increase of taxation

STATEMENTS FROM HEAD-QUARTERS

WASHINGTON, Oct. 17 There is much [illegible]ation concerning the condition of the Treasury in connection with the appropriations to be made by Congress at its next session. Some apprehensions are expressed that the revenues, owing to the recent panic, and its continued effects will not be sufficient for the support of Government for the present to say nothing of the next fiscal year The Treasury Department, however has a more hopeful view of the situation

IMPORTATION

It is said at official sources that the importations have not been much less than heretofore at this season of the year, but the receipts from duties have been diminished by reason of goods not being taken out of bond, owing to the condition of the money market. The duties collected are larger in the aggregate than anticipated under the circumstances, they being 50 per cent more than in the earlier days of the panic, and thus far in the present week 25 per cent above last week.

REVENUES UP TO THE ESTIMATES

The receipts from customs this month are in excess of what is required to pay the interest on the public debt for that period. There has been some difficulty in collecting internal revenue, but lately there has been much improvement and it is believed at the Department that the aggregate receipts at the end of the year will scarcely be diminished at all from estimates heretofore It is authoritatively said that

THE GOVERNMENT FINANCES ARE IN GOOD CONDITION.

The largest expenditures are always made during the first quarters of the fiscal year, commencing July 1st, and during the last three months the receipts exceeded the expenditures by nine million dollars, to which amount the public debt was reduced during this period. Accordingly more than pro rata of the expenses of the succeeding quarters of the present fiscal year has been paid. The prospect is, according to those best acquainted with the subject, that the aggregate receipts will be sufficient to pay all obligations of the year

ADOPT RETRENCHMENT.

With regard to apprehended deficiencies [illegible] no estimates from any of the departments concerning them have been furnished to the Treasury Department, and therefore no idea can be formed of their character and extent. There is no apprehension that Congress will impose additional taxes to supply supposed or actual deficiencies, in the receipts, but rather restrict appropriations to economical limits, and commence no new works that may not be actually needed.

SILVER CURRENCY.

The Director of Mints says that the idea of putting silver coin in circulation is not based upon expected early resumption of specie payments, but upon the variety of circumstances existing in this country and in Europe, all of which tend to lower the price of silver as compared with gold

THE POSTAL CARD

manufacturers in Massachusetts have supplied the deficit of the old demands and all orders are now filled by the Post Office Department as fast as received.

HORRIBLE AFFRAY

A despatch from Bakersfield, Kern Co, Cal, gives the particulars of a horrible affray near that place on election day Larry Watson added Moses Gilman who he voted for, and upon receiving a reply he struck him on the head with a bottle, inflicting wounds which resulted in the death of Gilman in a few minutes Robert Peppard and others attempted to arrest Larry, when he drew a knife and stabbed Peppard twice, inflicting mortal wounds Peppard then got the knife away from Watson and stabbed him, when both fell and died within two minutes of each other

FROM ALBANY

TRACING THE PHELPS ROBBERIES

ALBANY Oct 17. The State Treasurer has received replies from the County Treasurers and finds that the drafts they forwarded are all correctly noted in Phelps Books, and there is a deficiency of about $300,000 Some of the drafts surreptitiously used by Phelps were endorsed by him as correct but a large part were regularly endorsed by Deputy Treasurer Pach, $55 000 of the latter have been brought to light, payable to Charles Hudson, cashier Hudson's name on these drafts was written by Phelps Charles Hudson, cashier, is connected with the firm of T A Sherwin & Co, N Y Drafts should have been made payable to E Groesbeck cashier of the Albany Commercial Bank, and deposited in that Bank By making them payable to Hudson, Phelps diverted them from their proper depository and made them available to himself probably through Hudson. Phelps had no right to endorse drafts A warrent for the arrest of F R Sherwin & Co, has been issued.

SHOCKING ACCIDENT We learn from Capt Stackpole, Route Agent on the B. & P. road, that a shocking accident occurred yesterday morning in one of the slate quarries in Brownville. Four workmen, John Roberts, Newton Talcott, Jacob Merrill and a French boy, were employed in blasting in the pit, and had put a foot charge in a freshly drilled hole in the ledge. Deeming this hardly sufficient, they put in six inches more of powder and were tamping it down, when the whole charge exploded with fearful force, fairly blowing all four into the air. The tamping stick of hard wood struck Roberts in the left eye and went completely through his head, coming out the back part of his skull. He was shockingly burned and bruised also, and when Capt. Stackpole's informant left was just alive with no possibility of recovery. Talcott was terribly burned and a large piece of his scalp torn from the side of his head The others were burned and bruised, but their wounds will probably not prove fatal The men were using either "Sampson powder" or dualin, which exploded with much more force than ordinary blasting powder.

WEATHER REPORTS Mr. Harry Barton, connected with the signal service, was in town yesterday, making preparations for the establishment of a printing station of the Signal Service Bureau, at which each day's weather predictions telegraphed from Washington, will be printed and sent out by mail through the post office to the one hundred and sixty post-offices, which can be reached by three o'clock in the afternoon by trains and stages.

The expediency of establishing a regular signal station at this port was early brought to the attention of the Washington authorities by the editor of this paper, who has been for some time engaged in correspondence with the Secretary of War and Chief Signal Officer upon the subject, from both of whom the most favorable assurances have been received. Special attention was called to the large amount of tonnage sailing to and from this port, and to the various connections which would render the weather predictions available over a wide extent of the interior. Our presentation was for the establishment of a station at this port, and to the [illegible] connection [illegible] Washington [illegible] Portland [illegible] Bangor [illegible] Augusta [illegible] Skowhegan [illegible] Dexter [illegible] Foxcroft [illegible] Dover [illegible] Guilford [illegible] Newport [illegible] Pittsfield [illegible] Waterville [illeg

THE HAUNTED CHAMBER.

Each heart has its haunted chamber,
Where the silent moonlight falls!
On the floor are mysterious footsteps,
There are whispers along the walls!

And mine at times is haunted
By phantoms of the Past,
Airy shapes and shadows
By the silent moonlight cast.

A form sits by the window,
That is not seen by day,
Fair as soon as the dawn approaches
It vanishes away.

It sits there in the moonlight,
Itself as pale and still,
And points with fleshy finger
Across the window sill

Without, before the window,
There stands a gidesy pine,
Whose boughs wave upward and downward
As wave these thoughts of mine.

And underneath the branches
In the grave of a little child,
Who died upon life's threshold,
And never wept nor smiled.

What are ye? O pallid phantoms!
That haunt my troubled brain?
That vanish when day approaches,
And at night return again?

What are ye? O pallid phantoms!
But the statues without breath,
That stand on the bridge overarching
The silent river of death?

LAWS OF THE UNITED STATES.

Passed at the Third Session of the Forty-Second Congress.

Convention between the United States of America and Denmark. Naturalization. Concluded July 20, 1872; Ratified January 22, 1873; Ratifications exchanged March 14, 1873; Proclaimed April 15, 1873.

By the President of the United States of America

A PROCLAMATION.

Whereas a convention between the United States of America and His Majesty the King of Denmark, relative to the naturalization of citizens and subjects of the two countries, was concluded and signed at Copenhagen by their respective plenipotentiaries on the twentieth day of July, 1872, the original of which convention, being in the English and Danish languages, is word for word as follows:

The United States of America, and His Majesty the King of Denmark being desirous to regulate the citizenship of the citizens of the United States of America who have emigrated, or who may emigrate, from the United States of America to the Kingdom of Denmark, and of Danish subjects who have emigrated, or who may emigrate, from the Kingdom of Denmark to the United States of America, have resolved to continue a convention for that purpose, and have named as their plenipotentiaries; that is to say, the President of the United States of America: Michael J. Cramer, minister resident of the United States of America at Copenhagen; and His Majesty the King of Denmark: Otto Ditlev Rosenorn-Lehn, commander of Dannebrog and Danebrogsmand, chamberlain, His Majesty's minister for foreign affairs, &c., &c., &c.;

Who, after having communicated to each other their respective full powers found to be in good and due form, and having agreed upon and concluded the following articles, to wit

ARTICLE I.

Citizens of the United States of America who have become or shall become, and are, naturalized, according to law, within the Kingdom of Denmark as Danish subjects, shall be held by the United States of America to be in all respects and for all purposes Danish subjects, and shall be treated as such by the United States of America.

In like manner, Danish subjects who have become or shall become, and are naturalized, according to law, within the United States of America as citizens thereof, shall be held by the Kingdom of Denmark to be in all respects and for all purposes as citizens of the United States of America, and shall be treated as such by the Kingdom of Denmark.

ARTICLE II.

If any such citizen of the United States as aforesaid, naturalized within the Kingdom of Denmark as a Danish subject, should renew his residence in the United States, the United States government may, on his application, and on such conditions as that government may think it to impose, consider him to be a citizen of the United States, and treat him as such; and the Danish government shall not, in that case, claim him as a Danish subject on account of his former naturalization.

In like manner, if any such Danish subject, so naturalized within the United States as a citizen thereof, should renew his residence within the Kingdom of Denmark, His Majesty's government may, on his application, and on such conditions as that government may think it to impose, consider him as a Danish subject; and the United States government shall not, in that case, claim him as a citizen of the United States on account of his former naturalization.

ARTICLE III.

If, however, a citizen of the United States, naturalized in Denmark, shall renew his residence in the former country without the intent to return to that in which he was naturalized, he shall be held to have renounced his naturalization.

In like manner, if a Dane, naturalized in the United States, shall renew his residence in Denmark without the intent to return to the former country, he shall be held to have renounced his naturalization in the United States.

The intent not to return may be held to exist when a person naturalized in the one country shall reside more than two years in the other country.

ARTICLE IV.

The present convention shall be ratified by the President of the United States of America, by and with the advice and consent of the Senate thereof, and by His Majesty the King of Denmark; and the ratifications shall be exchanged at Copenhagen as soon as may be, within eight months from the date hereof.

In witness whereof the respective plenipotentiaries have signed the same, and have affixed thereto their respective seals.

Done at Copenhagen, the twentieth day of July, in the year of our Lord one thousand eight hundred and seventy-two.

MICHAEL J. CRAMER.
O. D. ROSENORN-LEHN.

And whereas the said convention has been duly ratified on both parts, and the respective ratifications were exchanged at Copenhagen, on the 14th day of March, 1873, by Michael J. Cramer, minister resident of the United States of America at Copenhagen, and Otto Ditlev Rosenorn-Lehn Commander of Dannebrog and Dannebrogsmand, chamberlain, His Majesty's minister for foreign affairs, &c., &c., &c., on the part of their respective governments:

Now, therefore, be it known that I, Ulysses S. Grant, President of the United States of America, have caused the said convention to be made public, to the end that the same, and every clause and article thereof, may be observed and fulfilled with good faith by the United States and the citizens thereof.

In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

Done at the City of Washington, this fifteenth day of April, in the year of our Lord one thousand eight hundred and seventy-three, and of the Independence of the United States of America the ninety-seventh.
